Aspiring to be something more than a mere workman, he endeavored to perfect the different arts of clock-work, and succeeded in attaching to common time-pieces, at a small expense, machinery which produced music resembling the chime of bells, and the music of a flute. His attempts to discover the means of effecting a perpetual motion, led him to important discoveries. He contrived, among other things, a pendulum, which, being composed of two metals of unequal dilatability, remained unaffected by heat or cold. He afterwards made his celebrated writing automaton, which, by means of machinery contained within the figure, was made to move its fingers and hands, and to form handsome letters. His last work was an astronomical clock. He was surprised by death before this was finished.--2. Henri-Louis-Jacquet, son of the preceding, born 1752, at Chaux-de-Fond. From his earliest youth, he was employed...

Reviews

It in one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
