Ultimately, the secret is to make a qualitative change. Doing something different may be the key to your success! There was an ambitious man who he wanted to earn more money. So he did what everybody told him to do. At that time he thought his income had to come from a job. So he doubled his workload to double his income. Now he is that speaker. Now he s that person. He didn t merely double his income with the second approach, he multiplied it many times over. Working a fraction of the time he was working priorly.
