Dimensions: 9.0in. x 6.0in. x 0.1in.Bianchon, a physician to whom science owes a fine system of theoretical physiology, and who, while still young, made himself a celebrity in the medical school of Paris, that central luminary to which European doctors do homage, practised surgery for a long time before he took up medicine. His earliest studies were guided by one of the greatest of French surgeons, the illustrious Desplein, who flashed across science like a meteor. By the consensus even of his enemies, he took with him to the tomb an incommunicable method. Like all men of genius, he had no heirs; he carried everything in him, and carried it away with him. The glory of a surgeon is like that of an actor: they live only so long as they are alive, and their talent leaves no trace when they are gone. Actors and surgeons, like great singers too, like the executants who by their performance increase the power of music tenfold, are all the heroes of a moment. Desplein is a case in proof of this resemblance in the destinies of such transient genius. His name, yesterday so famous, to-day almost forgotten, will survive in his special department without crossing its limits. For must there not be some extraordinary circumstances to exalt the name of a professor from the history of Science to the general history of the human race Had Desplein that universal command of knowledge which makes a man the living word, the great figure of his age Desplein had a godlike eye; he saw into the sufferer and his malady by an intuition, natural or acquired, which enabled him to grasp the diagnostics peculiar to the individual, to...
