Reviews

Undoubtedly, this is the best work by any author. It is really simplified but shocks within the 50 % in the publication. Its been written in an extremely straightforward way and is particularly just following i finished reading this publication by which basically altered me, modify the way in my opinion.

That task, as it lay in my purpose, was the description and illustration, in as large detail as possible, of the spinning industry and general habits of true spiders. Subsequently, as announced in the first volume of this work, my plan was so far modified as to make the spinningwork and habits of Orbweavers the principal theme, and to group around the same the industries of other spiders in such relations and proportions as seemed practicable. In the present volume I have adhered to this modified plan, but less closely than in the preceding one, having made large use of the natural history of other tribes than the Orbitelariae. It is probable that this volume will be more interesting than Volume I. both to the scientific and general public. It takes up the life history of spiders, and follows them literally from birth to death, from the cradle to the grave; more than that, it goes beyond the sphere of existing faunal life into the geologic periods, and touches upon the history and destiny of ancestral araneads who lived in the strange surroundings of prehistoric continents, the sites of which are embosomed in the rocks, or, like the amber forests, are now beneath the ocean. The courtship and mating of these solitary creatures; their maternal skill, devotion, and self sacrifice;...
